

The WAM Newsletter is established as a non-profit voice for the purpose of circulating information of interest or value as well as shared experiences to Western United States Mooney Mite owners and enthusiasts. In addition, it is formed in recognition that a newsletter is essential to maintain communication between Mite owners in attempting flying condition preservation of the remaining single place Mooneys. The newsletter is published every two or three months or as enough news and information gathers to be informative.

R E M E M B E R - - - KEEP THE MITES FLYING

**t**he nation's flying businessmen and farmers are all up in the air about the new Mooney Mite. ■ It's the most personal, most timely airplane ever built! The single-place Mooney Mite offers big-plane speed, safety, stability, utility and comfort at a cost anyone can afford. ■ On the ground and in the air, the Mooney Mite sets new standards for flying businessmen and farmers, demands less attention and gives more dependable performance than any comparable business plane at the present time.
