

Western Association of Mooney Mites

VOL. XVIII 95-1

April 1995

This being the first issue of the newsletter for 1995 I'm hoping that all have had a happy holiday the past few months as well as an acceptable winter for those of you living in cold climates. For those of us in California, rain has been the enemy since the year began by not providing the great weather to which we have become accustomed. But better days are ahead!!! Ask the weather gods if you all do not believe me!

Membership List:

Starting with this issue and ending with the next (I hope), I have inserted the names of the members and addresses for those that would like to contact one another. As I have mentioned in previous issues, some of you may want to have a local flyin or gathering in your area.

This is a great way to see other mites including the exchange of ideas. Go for it!! If anyone desires the complete list now, drop me a line and I'll be happy to mail some.....Also a phone number of some particular member. Nothing ventured nothing gained!!!!!!

Mooney Homecoming Kerrville, Texas

The MAPA (Mooney Aircraft Pilots Assoc.) has a homecoming of Mooneys each year to Kerrville Tex. where the current Mooney factory exists. Bill Vandersande and I flew there in 1989 for that year's event. It was a very fine and different flyin with friendly and gracious people. We along with the Mites were treated royally because of our aircraft.....it would be great if a group of us would make the trip this year. Some members have expressed a desire to do so in the past; therefore, if anyone is interested we could plan a gathering to attend the Mooney homecoming!!! Well??? Please contact me accordingly! Soon!!!

Tires:

I've enclosed a bit of info which "Desser Tire" HAS FOR MITE TIRES: CALL FOR PRICING

Sizes	Ply	Brand	Description	Use
10/350-4	4	McCreay	Rib	Mite Main Gear

* El Reno Aviation, El Reno Oklahoma - 800-521-0333

* Fred Schmidt - 122 So. Main - Camden, Ohio - 45311 - 513-452-3230

Barbeque At Porterville:

The 1995 "Spring Get Together" is not too far into the future, in fact the dates are the 19th, 20th and 21st of May, the weekend after Mother's Day. The place as always is Porterville Calif. airport where it began some eighteen years ago. Some of you mite guiders may recall our first gathering; it came after WAMM's first annual fly-in the year before. Time certainly does fly..... Ben Favrholt who resides at Porterville has made arrangements to have a barbeque at his hangar on Saturday the 20th, so it should be a great gathering. Again pilots take your Mooneys to this airport on the 19th of May for a great fun time where we all can lie about our magic carpets, the fabulous Mites. If the mite is down fly something else or drive!!!!!!

Donations:

Welcome anytime - \$3.00 per year.....REMEMBER TO KEEP THE MITES FLYING
