

The WAMM newsletter is established as a non-profit voice for the purpose of circulating information of interest or value as well as shared experiences to Mooney Mite owners and enthusiasts. In addition, it is formed in recognition that a newsletter is essential to maintain communication between mite owners in attempting flying condition preservation of the remaining single place Mooneys. The newsletter is published as enough news and information gather to be informative to the mite owners.

First order of business is that everyone is reminded of the eighteenth annual fly-in for our "mighty mites", especially those of you that live out in this part of the USA. If distance is not a problem - come one, come all! The place chosen by the attendees last year was an overwhelming Columbia, Calif. again!!! It appears this issue is most of the times untimely because of my trip to Oshkosh almost yearly, for that I apologize. Look for the info of the upcoming mite fly-in at Columbia inside .....

On the subject of Oshkosh, the entire stay and visit was extremely worth while with all the various events and aircraft. One very nice Mooney Mite (M18C) belonging to Ted Teach of Ohio was in attendance and drawing a great deal of attention from the on-lookers. A great paint job and total restoration accomplished by Ted & helpers! I feel certain that the "Sport Aviation" magazine of EAA will have a feature story about it in the ensuing months. The main event this year was the celebrating of 50 years ending of world war II with all the warbirds of various kind flying in formation!!! What a sight!!! If some of you have not visited Oshkosh yet, you should attend at least one in your lifetime - of course, with the understanding that your love of airplanes are important and enjoyable.....

Some of you have heard from a John Wilson of Florida recently inquiring about your feelings regarding a club, etc, etc. According to John many of you responded with favorable comments. When John sent those questionnaires out to you he was not aware of WAMM being in existence. Now of course, he is a member. In my correspondence with him we concluded that one organization should exist (WAMM) with effort going in the west and east including get-togethers and flyins. All the news will be in one newsletter so that all members are aware of activities and good data! John Wilson will be the eastern coordinator and I the western for best results. More on this as time goes by; growth is healthy.....

Parts- Contact Fred Schmidt in Camden Ohio at 513-452-3230; also J.P. Hackenburg & Son in Montoursville Pa. at 717-368-8849 for Lycoming service on O-145 engines; Tires are available at Desser Tire & Rubber Co at 800-247-8473.....

Eastern Mite Owners - Contact John Wilson to express your desires for a mite gathering so that it can take place before winter sets in and plan for another next year.....John Wilson 5597 Carter Spencer Middleburg Fla 32068. I have no phone number.....HAVE FUN MITE GUIDERS.

KEEP  
THE  
MITES  
FLYING

ACTUALLY THE TERM "FLYING WING" (SINGULAR)  
IS A LITTLE MISLEADING!
